

Filox Iron Reduction Systems

AXEON Filox Iron Reduction Systems use advanced iron, manganese and hydrogen sulfide removal technology in order to meet the most demanding water conditions. These systems are designed for maximum performance with a minimal amount of maintenance and comply with all industry standards and specifications.

AXEON Filox Iron Reduction Systems offer a new dimension in water treatment equipment and have been engineered with both the installer and consumer in mind. Systems are available in many different models and may be customized to fit your application. **AXEON Filox Iron Reduction Systems** can be used in a variety of applications including residential, commercial, industrial and specialty.

AXEON Filox Iron Reduction Systems are effective in reducing iron, manganese and hydrogen sulfide. AXEON Filox Iron Reduction Systems require periodic backwashing to dispose of accumulated contaminants.

Standard Features

- Space saving design
- Fleck® 7000SXT Control Valve
- Easy to Program SXT Electronics
- Pre-Treat Lockout Contacts
- 48 Hour Power Backup
- Day-of-the-Week Controls
- Regeneration Can Be Triggered Immediately
- Structural® Heavy Duty Fiberglass Tank
- Heavy Duty Riser Pipe with Upper and Lower Screens
- Filox Media NSF 61 Certified

Options and Upgrades

- Yokes and Bypass Valves
- Various Sizes and Types of Connectors
- Stainless Steel Jackets

Engineered Water Treatment Solutions
