

IRF-Series Refillable In-Line Filter Cartridges

AXEON IRF - Series Refillable Inline Cartridges are designed to suit a wide range of filtration applications.

These empty cartridges can be customized by the customer with any filtration media or resin of choice. Cartridges can be used as a single point of treatment or integrated into a water treatment system. AXEON IRF - Series Refillable Inline

Cartridges come with a built-in mesh barrier to keep the media from being washed out of the cartridge.

These durable cartridges offer flexibility and high quality without many of the common problems associated with other empty cartridge designs.

Pictured filled with Medias and Resins

Benefits

- Clear design to help evaluate condition of filtration medias and resins
- Eco-friendly and economical solution by utilizing refillable design
- Customizable to fit any application
- High flow rates

207779	IRF - 2512	2.5 (6.35)	12 (30.48)	25	14.75 X 14.75 X 14.75 (37.50 X 37.50 X 37.50)	12

Specifications

Product Specifications		
Part Number	207778	207779
Volume (ft³)	0.01	0.02
Maximum Flow Rate (gpm / lpm)	0.5 / 1.9	0.5 / 1.9
Maximum Pressure (psi)	60	60
Maximum Temperature (°F / °C)	100 / 40	100 / 40
Color	Clear	Clear
Dimensions	2.0 x 11.25 / 5.08 x 28.58	2.5 x 11.25 / 6.35 x 28.58
Connections (in)	1/4 FNPT	1/4 FNPT
Case Quantity	25	25
Box Dimensions (in / cm)	12.25 x 12.25 x 12.25 / 31 x 31 x 31	14.75 x 14.75 x 12.25 / 37.5 x 37.5 x 32.5
Box Weight (lbs / kg)	13 / 5.9	11.5 / 25.4
Materials of Construction		
Cartridge Body	Acrylic	Acrylic
End Caps	Acrylic	Acrylic
Filter Pad on End Cap	Polypropylene	Polypropylene
Gaskets	NBR	NBR
